

“Scan the Clan”

Do you worry about your family snaps?

Family photos are fragile. They deteriorate over time and may be lost or damaged through fire or spillages. We can help you to ensure they are protected against such accidents.

As part of WA Heritage Festival, why not book a one-on-one “Scan the Clan” session with our Community History Librarian. Who will show you how to scan your images and burn them to DVD so that you can view them on your TV.

Bookings are essential and very limited so call today!
